STREETS OF NEW YORK CROWDED TODAY WITH THOUSANDS OF WOMEN

Great Parade of Suffragettes Attracts Women From Every State in the Union As Well As Far Off Alaska

THIRTY THOUSAND MARCH UP FIFTH AVENUE

Women Voters from Nine Suffrage States March in Parade Garbed in White With Laurel Wreaths in Hair—Representatives from Norway, Sweden and Finland Participate—Two Thousand and Male Sympathizers Trudged Along Line of March.

[Associated Press Telegram] New York, May 3.—Eyes front, heads erect, shoulders squared, 35,000 women—and men—marched eight abreast to the blare of forty bands up Fifth avenue this afternoon in the greatest parade ever held for the cause of women suffrage.

Behind a squad of mounted police, the long line swept out of Washington square shortly after 2 o'clock, a white ribbon of marching womanhood, spangled with the yellow banners of suffrage, broken here and there by the same colors of the detachments of male sympathizers. Over streets that had been swept and scrubbed till they glistened in the sunlight they paraded to Central Park, at Fifty-ninth street. Tens of thousands held to the curb by 1200 blue coats, gave voice welcome.

For days the leaders of the great parade had planned for the pageant

until it was letter perfect. The city authorities, intent on avoiding a repetition of the disorder of the suffrage parade at Washington, made elaborate police arrangements and there was every indication that the parade would not be marooned by untoward incident.

Hundreds of women from other states and scores of suffrage associations were in the long line. Almost every scale in the social system was represented, from women of wealth foremost in the fight, to domestic servants from the equal suffrage nations of Europe, clad in their national costumes. Women voters from the nine white "states in the suffrage map" General Rosalie Jones, and her little "army" of pilgrims who tramped from New York to Albany and New York to Washington; clerks, stenographers, telephone operators,

ADMITTANCE REFUSED TO HUNDREDS

[Associated Press Telegram] Springfield, O., May 3.—Society en masse was lined up at the court house as early as 6:30 o'clock this morning to be on hand when the arguments were started in the case of Dr. Arthur B. Smith, charged with the murder of his first wife, Florence Caviler Smith, by poisoning, and whose fate will rest in the hands of the jury before the setting of another sun. The arguments started promptly at 8 o'clock, the opening address being made by special states counsel Lawrence Laybourne. He bitterly assailed the accused man in his opening remarks, reviewing the case as the state sees it, from the beginning to its present time. He went into detail in reviewing the history of Dr. Smith.

Mr. Laybourne will be followed by John Cole and James B. Malone, for the defense and Prosecuting Attorney Ballard will make the closing address. It is expected that the arguments will be completed by 4:30 this afternoon, following which Judge Hagan will read his charge to the jury. The case is expected to be placed in the jury's hands by 5:30 o'clock. Owing to the reputation of the attorneys in the case, hundreds are on hand to hear the arguments. Hundreds had to be refused admittance to the rooms.

LOCAL COMPANY WILL TAKE OVER HOWELL PLANT

A movement is on foot to organize a local company which will take over the plant of the Howell Provision company and operate it as a local concern. According to the information given out Saturday afternoon, local capital will be united with that of a number of out of town people.

"The prospects are very bright for an early organization of such a company," said a Newark man. "We believe that the plant can be operated at a profit and it is probable that the present movement will result in a satisfactory arrangement."

PREPARING FOR CELEBRATION OF THE 50th ANNIVERSARY

[Associated Press Telegram] Gettysburg, Pa., May 3.—With the arrival yesterday of a battalion of four companies of United States Infantry from the barracks at Plattsburg, N. Y., Gettysburg took on the appearance of a military outpost in preparation for the fiftieth anniversary of the battle.

Sixty-five men with three commissioned officers were sent here to do guard duty over the vast quantity of government property that has been sent here for the celebration in July. Many tents are already up and the southern border of the town has the appearance of a great tented city.

TELEPHONE COMPANIES TO CONSOLIDATE

[Associated Press Telegram] Columbus, O., May 3.—Consolidation of the Central District Telephone property with the Eastern Ohio Telephone company is sought in an application made to the public service commission today.

The Eastern Ohio company seeks to purchase and property of the latter company located in Hanoverton. Both companies are doing business in Stark, Carroll and Columbiana counties, and this is said to be the first step towards a general elimination of the weaker company in towns where they conflict.

PRESIDENT OF HAITI REPUBLIC DIED LAST NIGHT

[Associated Press Telegram] Port au Prince, Haiti, May 3.—The president of the Republic of Haiti, General Tancredi Auguste, died at 9 o'clock last night after a brief illness. The national assembly was convoked today to elect a successor to the chief executive.

Four candidates were prepared to present their claims to the office—Judge Luxembourg Cuvain, former minister of the interior; Michael Oreste, prominent senator; General Benoit Larose, minister of war, and General Bellard.

Quiet has reigned every where since the president's death but precautions against any possible outbreak were immediately taken by General Politevin, the commander in chief, who ordered all the troops to hold themselves in readiness to suppress disorder.

SECRETARY BRYAN LEAVES.

[Associated Press Telegram] Sacramento, Calif., May 3.—Secretary Bryan's mission to California is ended. Without waiting for the senate to take action on the alien land holding bill, he will leave Sacramento for the east at 5:04 this afternoon by way of Los Angeles.

Thirteen states have boiler inspection laws.

COCKING MAIN WAS RAIDED BY THE DEPUTIES

[Associated Press Telegram] Steubenville, O., May 3.—A cocking main at Amsterdam, Jefferson county, at which was gathered 200 sports from Cleveland, Pittsburg, Alliance and Steubenville, was raided by Deputy Sheriff J. C. Huscroft and a posse of deputies late last night. The entire crowd was placed under arrest and fined. The Cleveland birds were backed by a pool of \$3,000. Look-outs played around the building where the fight was pulled off, and failed to discover the deputies as they approached. The crowd was dispersed after Justice of the Peace H. F. Lawler held a session of court and collected the fines.

WOMAN BURGLAR DETECTED BY YOUNG GIRL

[Associated Press Telegram] Pasadena, Calif., May 3.—A woman burglar, faultlessly attired, and employing an automobile in her work, was driven from the home of Mrs. P. B. Geary, by Helen Geary, 17 years old, after a desperate encounter between the women late last night. The visitor was ready to depart with a loot valued at several hundred dollars when she was detected by the young woman. A fierce fight ensued, the Geary girl being knocked down. The thief then jumped into her automobile and sped away, leaving the plunder.

BURN SHEDS AND FREIGHT AT BRADFORD

[Associated Press Telegram] Bradford, Eng., May 3.—Extensive sheds belonging to the Midland railroad, containing much freight, burned down here last night, causing a loss of \$500,000. Nineteen loaded freight cars and quantities of dry goods and carpets were consumed.

Mysterious fires have broken out in these sheds on three successive Friday nights. The militant suffragettes were suspected, of arson, but there was no proof of this. The latest fire was evidently incendiary, for the fire when discovered, had been started simultaneously in several parts of the fire department was able to save the adjoining building by its utmost efforts. Early in the night a fire had been started in some cars loaded with straw in another yard apparently to divert attention from the principal scene of operations by the starters.

[Associated Press Telegram] Aberdeen, Scotland, May 3.—One of the public schools of this city was partly burned this morning by militant suffragettes. The damage amounted to \$2,500. A large quantity of suffrage literature was found scattered about the building.

[Associated Press Telegram] Philadelphia, May 3.—"Jack" Souter of Philadelphia today won the professional racquet championship of the world by defeating Chas. Williams of England, the title holder, at the Racquet club.

This country employs 800,000 women in its industries.

Many Important Administration Measures of Recent Legislature Signed Today by Governor Cox

[Associated Press Telegram] Columbus, Ohio, May 3.—Four important administration measures passed by the recent legislature were approved at noon today by Governor Cox.

They were the liquor license bill, the agricultural commission act, "the blue sky" measure and the bill establishing a censorship upon moving pictures.

On the ground that the legislature has no pardoning power except in treason cases, Governor Cox today vetoed the Kessler bill which would have restored the elective franchise to the voters of Adams county, who were disfranchised by Judge A. Z. Blair for vote selling. The measure has passed both houses of the legislature by large majorities. Some 1665 people would have been affected by the provisions of the law.

The action of the chief executive is based on the decision of the state against Peters, 43rd Ohio state infantry.

Before the bill was passed, Judge Blair came to Columbus and interposed objection to it, contending that the general assembly was not clothed with power to grant pardons. He declared that the proposed law would be unconstitutional. It will be recalled that the judge was given a severe grilling by the members of the house committee that had the bill up for consideration. He admitted that he had formerly indulged in the practice of trafficking in votes.

The fight over the bill was something of a "wet and dry" affair. Because of his prominence as a temper-

LAND BILL IS PASSED BY SENATE

The State Administration Measure Wins Out Easily in California

TEN HOURS OF DEBATE

Results in Vote of 36 to 2—Assembly May Get Bill Today—Futility of Sec'y. Bryan's Mission.

[Associated Press Telegram] Sacramento, Cal., May 3.—Governor Johnson is expected to have in his hands tonight an alien land law barring Japanese and other aliens ineligible to citizenship from the soil of California. He has agreed to delay the signing of the bill until opportunity shall be given for hearing whatever protests President Wilson may desire to make. In the governor's own words, this delay will cover a "reasonable time," probably not less than ten days, nor more than thirty. Although the act is designed to exclude all aliens ineligible to citizenship it is drawn in conformity with treaty obligations and guarantees to every alien his full treaty right, omitting the phrase "ineligible to citizenship" objected to Japan.

With this program on the cards the assembly picked up today the work of the senate and began final consideration of the Bloodgood bill, which is identical with the Webb re-draft of the anti-alien bills passed early this morning by the senate.

It was planned by the administration floor leaders in the lower house to adopt the same procedure followed yesterday by the senate and to begin at once the long debate that must necessarily precede conclusive action. The effect of the senate's unanimous decision was expected, to hasten the vote.

Since the Bloodgood bill is identical with the senate bill already passed, it will be sent on passage at once to the committee of enrollment, there to be compared with its companion measure. When the identity of the two acts has been verified the committee will report back to the house and the bill will be sent to the governor for his signature.

[Associated Press Telegram] Sacramento, Calif., May 3.—The administration and alien-land holding bill drawn by Attorney General Webb, passed the senate at 12:45 o'clock this morning by a vote of 36 to 2, after nearly ten hours of debate. The only (Continued on Page 10—Col. 7)

COLORED EDITOR LOSES \$15,000 DAMAGE SUIT

[Associated Press Telegram] Seattle, Washington, May 3.—Horace R. Cayton, colored, editor of a newspaper, yesterday lost his suit for \$15,000 damages against a restaurant proprietor who asked him not to patronize his place. Judge Ronald upheld the contention of the defense that Cayton was not deprived of his civil rights.

According to the evidence, Cayton, after his first appearance in the restaurant was asked not to come again; he did come again, was served, not charged for the meal and again requested not to eat there.

WOMEN RAID A WILD CAT STILL NEAR ROME, GA.

[Associated Press Telegram] Rome, Ga., May 3.—Suspecting the existence of a "wild cat" still in their community, and the almost open sale of liquor, a party of women from West Armuchee searched the woods in that section until the alleged still was found.

The raiding party made an effort to demolish the equipment of the place, but were only partially successful.

Revenue officers were notified and made a raid, only to find that the entire outfit had been removed and the place deserted. According to the officers eight hundred gallons of beer were destroyed. Arrests are expected.

MAY INITIATE BILL TO REPEAL THE ROSE LAW

[Associated Press Telegram] Columbus, O., May 3.—"Wet" leaders about the capitol today intimated that the "wets" may initiate a bill to be presented at the special session of the legislature next winter, for the repeal of the Rose county local option law. When they heard the rumor, the "drys" said that if their opponents initiated such a bill, they would initiate a bill providing for state-wide prohibition.

Alonzo G. Shetler, of Columbus, one of the "wet" managers, admitted that an initiative bill for the repeal of the Rose law is being considered. The "wets" are delaying, he said, because it is not known whether a special session of the legislature under the new constitution could consider an initiative bill. The constitution states that a special legislature can consider only that which it is called upon to consider by the governor.

PEACE CONGRESS IN SESSION AT ST. LOUIS TODAY

[Associated Press Telegram] St. Louis, Mo., May 3.—"A Century of Anglo-American Police," was the general topic for consideration at the fourth American Peace congress today. William Renwick Riddell, justice of the Supreme court of Ontario, reviewed the history of British-American relations for the last hundred years and said that instructions more difficult of settlement than any other settled had been adjusted peacefully between the United States and Great Britain.

TRAGIC DEATH OF THE COUNTESS OF COTTENHAM EARLY THIS MORNING

Discovered in Grounds of Family Residence by Husband and Sons With Gunshot Wound Through Heart

JURY RETURNS VERDICT OF ACCIDENTAL DEATH

Countess Was Enthusiastic Huntswoman and Fine Shot and Frequently Hunted Alone on Her Estate at Elvenden—Had Evidently Stumbled Over a Stump Accidentally Discharging the Gun Which She Was Carrying.

[Associated Press Telegram] Henley, England, May 3.—"Death by the accidental discharge of her own gun," was the tragic fate this morning of Countess of Cottenham, wife of Earl of Cottenham.

The countess' twin sister, daughter of the Marquis of Abergavenny, was found dead in 1910 with a gunshot wound through the heart, in the grounds of the family residence in Oxfordshire.

Today's affair was at first a mystery, and it was not known whether she had been murdered, had committed suicide or had been accidentally shot until the Earl of Cottenham himself testified at the coroner's inquest at noon.

He said he had been out with his boys and when he returned and found his wife missing he instituted a search which resulted in the discovery of her corpse with the gun

beside it near the stump of a tree over which she had evidently stumbled, at the same time accidentally discharging the weapon. The jury thereupon returned a verdict of accidental death.

The countess was an enthusiastic huntswoman and a fine shot. She frequently roamed alone with her gun through the preserves of her estate at Elvenden priory.

The twin sister of the countess was Lady Violet Neville, who became Countess Cowley and whose divorce suit against Earl Cowley in 1897 created a widespread sensation.

The Countess of Cottenham first married John Blundell Leigh and also went through the divorce court in 1899, her husband being the plaintiff and the Earl of Cottenham the co-defendant.

She married the Earl of Cottenham in the same year. They have three sons, who are all living.

CONSTITUTIONAL CONVENTION COST THE STATE \$420,425

[Associated Press Telegram] Columbus, O., May 3.—The last word incident to the moulding of Ohio's new constitution, which already is in working order, will be finished next week, according to Secretary Galbreath of the constitutional convention. By the end of June all of the debates of the convention will have been printed and distributed. The total cost of the convention will probably be \$420,425. Of this amount \$150,000 was for the holding of the special election and \$70,000 for advertising the proposed amendments in the newspapers of the state. Work on amending the constitution began a year ago the first of the year.

SNOW STORM IS COMING FROM NORTHWEST

[Associated Press Telegram] Washington, May 3.—The first hot spell of the year is forcing an early appearance of the straw hat and the peekaboo waist in all the Atlantic coast states. On the other hand there is a cold spell in the northwest that is keeping the same articles of spring wear in storage.

For the last four months, according to the weather bureau unusually high temperatures have prevailed throughout the western section of the country. This condition in the language of the sharps, is caused by a conflict of a high barometric pressure over the south Atlantic ocean with a corresponding low pressure that has made its habitue in the northwest for the last four or five months.

"I don't know just what the reason for this conflict is," said Observer Ed W. Bowie today, "throughout the winter and spring, this conflict has been going on but what is really causing it we have been unable to discover. Whether it means we will have an unusually hot summer I really cannot say. There is a storm coming from the northwest now and it may develop lower temperature in the east by Tuesday and again it may not. It all depends on whether the low pressure in the northwest will win in its fight with the high in the southeast."

Man's Body Found In Field: Believe He Was Murdered

[Associated Press Telegram] Cleveland, O., May 3.—The body of Stephen Clatworthy, 33, a bricklayer, was found today in a field, one hundred feet from Warner's road, Cleveland Heights. He had been shot through the head and heart, the police believe he was murdered, as the wounds indicated that a rifle had been used to accomplish death, and no weapon could be found nearby. The shooting took place some time last night.

WOOL FIGHT HAS BEGUN IN HOUSE

[Associated Press Telegram] Washington, May 3.—The house late today sustained the wool schedule of the Underwood bill, 198 to 74 and voted down the Republican substitute.

[Associated Press Telegram] Washington, May 3.—Schedule K, the much discussed, always disputed wool tariff upon which the Democrats maintain the Republicans stumbled in their fall from power last fall and over which their own party is divided, brought the tariff fight in the house today to a climax.

It was apparent early in the day that free raw wool as projected in the administration bill was in for a three-cornered fight, the Republicans demanding a duty of about eighteen percent, supported by some of the Progressives and the wool insurgents of the majority demanding a fifteen percent duty which they claimed was the original judgment of the ways and means committee until President Wilson took a hand.

Though approved by the Democratic caucus after a two-day's fight and almost certain to come through the house struggle unscathed, the wool schedule brought out the heaviest oratorical of the proposition and many predictions that free raw wool would not stand the fire in the senate but would eventually come back to the house with a duty and receive the solid Democratic support.

Majority Leader Underwood championed the schedule with all his force on behalf of the ways and means committee and the president. As he did in caucus, Mr. Underwood declared the president was as much entitled to consideration in the making of the tariff as any other citizen and he lauded him for his general approval of the measure as it came originally from the committee.

Many of the Democrats, free from the rule of the caucus were outspoken in their opposition to the schedule, the protesting majority members coming from Ohio, Texas, Indiana and other western states. Those who voted against it in the caucus but who agreed to stand by the majority were silent in today's discussion which promised to continue tonight.

Ohio members who voted against free wool in the Democratic caucus will all vote for the tariff bill in the House when the final vote is taken. Representative Payne offered as a substitute for the new wool schedule the Republican wool bill he introduced in the last congress. Representatives Murdock and Martin also had amendments. The schedule was read under an agreement for three and one-half hours general debate. Mr. Underwood urged that purely political speeches be avoided.

## CURES BARBERS ITCH PROMPTLY

When All Else Fails Goodhair Soap Cures Barbers' Itch.

"Will you kindly send me a cake of your celebrated 'Goodhair' soap, for which I am enclosing 25 cents in stamps. Have been sending to Dayton for the soap, as I have been unable to locate your products in any store in this city, and cannot do without it at any cost. I spent about \$100.00 several years ago, trying to remedy 'barbers' itch.' Finally, as a last resort, I was persuaded to use your soap, and brought immediate results, at the small price thereof. Have recommended 'Goodhair' to all my friends and acquaintances, and have used it myself ever since. It cures all skin diseases, but they also seem to be unable to secure it here. Just gave the last cake away today to a friend, and the man unfortunately who could not locate the product."

Yours respectfully,

Y. M. C. A. NOTES

Shop meetings were conducted this week at the B. & O. shops and at the Wesley plant. Secretary Johnson spoke to the B. & O. and Miss Helen Nichols sang. The attendance was very good considering that at this time of the year a great many of the men go to their homes for their dinners. Dr. Hazlett spoke at the Wesley plant and was assisted by Miss Florence Lemert, who gave a reading. Ruth Shrank played the organ at each meeting. The attendance at both meetings was over one hundred.

Any of the men of the city who can help arrange to attend the International Convention of the Young Men's Christian Association which is to be held at Cincinnati May 14-19 such men as John R. Mott and Robert E. Spear will be the principal speakers at that convention.

Arrangements have been made for the starting of a Boy's Garden Club in a small scale Ten or twelve boys will be interested in the project this

year, which will be a nucleus for a much larger club next year. Two garden plots have been secured on Merchant street, just west of Tenth.

The regular meeting of the Board of Directors will be held next Thursday evening, May 14th.

As rapid progress as possible is being made to shape the lot at the corner of Locust and Third for tennis courts. The first game of the grade school league was played Wednesday between the North Fourth street school and the St. Francis 1st Sales which resulted in a victory for the North Fourth street school, the score being 20 to 19.

On next Thursday there will be a feed given for the boys of the winning teams of the Intermediate and Junior basketball league.

On next Monday evening there will be a wrestling class start at the Gym and all members who wish to enter this or wish to know more about it can call and see the physical director.

**OHIO ELECTRIC TO ISSUE FLOOD BONDS**  
The Ohio Electric company has been granted the right by the public service commission to issue \$3,500,000 second mortgage twenty-year gold bonds bearing five per cent. interest with which to refinance their road. The damage by flood made the issue necessary. A provision was made in the concession that the company must reduce its outstanding stock \$3,500,000 by retirement.

**Borden Heiress Ran Away to Get a Home, She Says**

New York, May 3.—Ramona Borden, the 17-year-old daughter of Gail Borden, one of the owners of the eastern milk trust, ran away from her father, she told reporters in New York, because she wanted a home. On her discovery by her father in Boston and her return to this city she posed for photographs and then told her story in detail, with the hope, the Borden family believed, that the sensation would be explained and ended.

But the mystery remains, and there has been no reason given to the public for the disappearance of the young woman in company of two married women friends. The young woman vehemently denied accusations against her friends made by her father. She will go on to Los Angeles with her mother, who is separated from the father.

In telling why she ran off she said: "I ran away from the sanitarium at Pompton Lake, N. J., because I wanted a home and I knew I would not have one unless I reached my mother. I was tired of being tossed from hotel to hotel, from school to school, with the sanitarium in between. I wanted a home, I still want a home, and I am going to have a home."

"I am going to live with my mother in Los Angeles, and I am going to school there, where I can lead an outdoor life and have a home."

**Y. W. C. A. NOTES**

There was an unusual sight in the gymnasium on Tuesday night when two large circles of Camp Fire Girls gathered around the mock fire in the middle of the floor. In the first Council meeting of the several camps this meeting were the girls from the high school, grade schools, business college, and stores and offices. The same ceremony will be given at the out-door Council Fire to be held, if the weather permits, next Sunday afternoon at 3 o'clock on Buena Vista Hill.

Attention is called to the Bible class to be started on Tuesday evening, May 12, in the gymnasium. This class will be able to taught by Rev. Don Tullis and is open to the public. The hour of the meeting will be from 7 to 7:30.

There is still time to join the millinery class which meets on Monday evening at 7:30 o'clock. Each girl furnishes the material for whatever sort of hat she wishes to make. Price for instruction is 75 cents for the term of five lessons.

The Junior Camp Fire girls will meet at the building at 3 o'clock instead of 2, as has formerly been done. Ice skating is the new fad at the Y. W. C. A. All young women of the city are invited to come in at any time to skate.

## Doctors Endorse Newbro's Herpicide For the Hair

When a doctor endorses a preparation it means more than an ordinary testimonial. His opinion is always that of the professional man devoted to the welfare of the people.

Dr. J. J. Boyd, Covington, Tenn., says: "I feel it my duty to write this for the benefit of those suffering from dandruff. In the average case a few applications of Newbro's Herpicide will remove all dandruff. It is advisable to continue its use for several weeks."

The words of J. B. Thompson, M. D., No. 2 Burrough Place, Cor. Hollis St., Boston, Mass., are not less enthusiastic: "I can only speak in praise of Newbro's Herpicide. It is all that is claimed and perhaps more. Herpicide not only cleanses the scalp but brightens the hair, gives it life and makes it soft."

Dr. T. A. Moore, Duncan, Ariz., writes of his experience: "My scalp was in places covered by patches of dry, scaly material and the itching was incessant. Since using Herpicide all these evils have disappeared and my hair is soft, smooth and growing. Hair has grown on spots before but thinly covered."

Newbro's Herpicide is "the original remedy to kill the dandruff germ" and stop falling hair. The terrible itching which goes with dandruff is allayed almost at once. Newbro's Herpicide in 50c and \$1.00 sizes is guaranteed to do all that is claimed. If you are not satisfied your money will be refunded. Applications may be obtained at the leading barber shops. Be sure you get genuine Herpicide. W. A. Erman, Arcade Drug store, special agent.

## CONGRESSIONAL CANDIDATES.

The Holmes County Farmer, always a highly capable and careful observer of political situations, makes the following allusion to conditions and prospective candidates for Congress in the new 17th district:

"There is a long list of prospective candidates for congress in the new district, and nearly all of them are members of the present legislature. Outside of Congressman Ashbrook, there are Representative Fulton, of Licking, Senator Green of Coshocton, Senator Cunningham of Knox, Senator Senator Haas of Delaware, and Senator Jim Seward, of Richland. There will be a scramble when the primaries roll around; but by that time Ashbrook will have met two-thirds of the voters in the district and will have no trouble getting the nomination."

The best information at hand is that Senator Cunningham of Knox will not be a candidate for Congress, and Senator Haas, of Delaware, states positively that he will not be a candidate.

Speaking of President Wilson's short tariff message, The London News admirably observed: "After the turgid verbosity of Mr. Roosevelt and the good-natured flatulence of Mr. Taft, the simple directness and force of the new president must be a startling novelty to congress." This is very neatly put. It is a snapshot.

By reason of the proposed reductions of tariff duties in the Underwood bill there will be a loss of federal revenue estimated at \$100,000,000. But the estimated resulting saving to the consumers of the United States will be \$800,000,000. Is that worth while?

For what purpose will the Powers intervene in the Balkans? Albania is independent, and will get Sentari when Montenegro is paid the price.

Everything has its uses and the European war scare was the means of rushing the German army increase bill in the Reichstag.

As a matter of fact, could the California farm industries survive without laborers from East and West Asia?

The interview between King Nicholas and the Austrian envoy was warm, but not amicable.

Siberia is expected to be an important source of the world's food at no distant day.

## BLACK BASS PROTECTION

An item crept into the columns of the Ohio State Journal yesterday pertaining to the law protecting fish, the season for which went into force on May 1st. The State Journal writer claimed that big month bass were not protected by the game laws providing for the protection of black bass. This is a gross misstatement. The black bass, known in lethology as the genus Micropterus are specifically protected under the fish and game laws, and the closed season in Ohio is the month of May. The genus of black bass may be either "big mouth" or "small mouth," and both are distinctly protected under the Ohio law during the month of May.

It is very important as well as proper that the law protecting black bass should be strictly enforced at Buckeye lake.

## IF JAPAN FOUGHT US.

Some of the people who are worrying about the drubbing the little brown men are going to give Uncle Sam might feel different if they would make a study of the hard times now prevailing in Japan.

After the war with Russia, the Japanese government set out to create economic independence, partly through a protective tariff and ship subsidies, but more particularly by direct government aid to manufacturing. Companies with capital aggregating hundreds of millions were organized. The government guaranteed the interest payment on many of these.

For the time being this created a fictitious appearance of prosperity. Within the past year, however, it is seen that a nation, like an individual, can't lift itself by its own bootstraps. The growth of manufacturing towns has led to the depletion of the agricultural districts. There are great sections where there are abandoned farms like those on the worn out hills of New England. The result has been a distressing advance in the cost of rice, and half rations among the poor.

The income of the Japanese people averages about \$23 per capita. Their taxes take \$4.40 out of this \$23. They are not in very good shape to invest in the costly playthings of war! It will take the Japs a generation to carry off the burdens of the Russian war, and to adjust themselves to the costly scale of living of modern civilization.

Von Moltke once said that he knew 1000 ways to get a German army into England, but not one to get it out. How much more true this would be in case of a Japanese attack on this country.

## Suffragette Beauties Who Posed in Great Tableau at Metropolitan Opera House

Some, perhaps most, of the young women selected to pose in the tableau at the Metropolitan Opera House in New York to represent the advancement of women, are good to look on. The managers of the woman suffrage party, who made the selections, picked out some of the most beautiful they could find. Particularly were they successful in the case of Pauline Freilicks, who represents woman, and Mrs. Sybilla Pope and Mrs. May Belle Morgan, who were among the ornaments of the show, dressed in Greek costumes.

"Yes," said Mrs. Morgan several days before the show, "I am going to be barefooted, just like the Greeks in festivals and the boys in the spring time."

## On Second Thought

A good many men talk bass at home and are tenors down town.

The natural consequence of close and intimate association with a woman is to induce a man to suspect every other woman's complexion.

If you wait long enough you can have your revenge, but if the delay is protracted the chances are you won't care to take it.

Eph Wiley says the best testimonial to the value of advertising is the fact that it sells fountain pens.

If a woman loves a man she is not content merely to call his attention to the ravening on his sleeve. She wishes to pick it off herself.

The unsuccessful issue of a man's wooing often is due to the fact that he parents of the girl approved of him.

Much of that which passes for his ory is inaccurate. Probably what George Washington really said was "I done it with my little hatchet."

Do not attempt impossibilities. Do not, for instance, promise to make a woman happy.

## LEFT BEHIND

When the rich man dies we are prone to think of the folly of human greed; he toiled and worried to get more chick than a mortal could ever need. For years he had no repose, no rest from the beastly grind and now when down to the tomb he goes, to leave all his junk behind him. He leaves his bonds and he leaves his stocks, and he leaves his guns and his shining rocks, all junk when the rich men die! Of no use then to the plutocrat are the markets, weak or strong; for a suit of clothes and a white cravat are all that he takes along. Like Lazarus, to an open ditch, he goes, with his wealth of flowers, and then he's married by the idle rich for seven and twenty hours. Not long, not long shall the treadmills flow, or the dead be kept in mind, for the plutocrats, when at last they go, leave all of such things behind. Few earnest mourners shall weep above the graves that the rich men hold, they never wanted such stuff as love, their efforts were all for gold; they had no faith in such things as hearts, no knowledge of human souls, they spent themselves in the busy marts, increasing their gulfing toils. They bear no wealth to the golden isle where the angels sing their song, for a white cravat and a wistful smile are all that they take along.

## HEALTH HINT FOR TODAY.

**Acid in Rheumatism.**  
It is said tomatoes augment if they do not cause rheumatism. The acid in them, while it adds to the flavor of the vegetable, is very injurious to gout, and many think it is better not to eat them. Rheumatism is beyond doubt an acid disease, and any acid, save citric, as found in the lemon and orange, may give rise to it. Strawberries and peaches are familiar examples of the acid giving rise to this disease. Meat, too, acts as a generator of lactic or uric acid, as every one knows. Do not eat tomatoes if troubled with gout or rheumatism.

## Daddy's Bedtime Story — The Little Pig's Naughty Revenge.

"FOLKS generally think that pigs are very stupid animals," said daddy one evening to Jack and Evelyn, "and I am not sure but that they are right. But they are not all foolish. Once I heard a funny story about a pig that got even very nicely with another pig that frightened him."

Of course Jack and Evelyn wanted to hear the story. So daddy went on to tell it.

"This happened many, many years ago," said daddy. "In a western city which is now one of the most beautiful in America and has streets that are well paved, but in those days the streets were nothing but streaks of mud, and pigs used to run about in them."

"This particular pig had been rooting around in the mud for something to eat and had found nothing, so he decided to go away and root in another street. He got up and walked along slowly, just as though he were thinking very deeply. He was quite a young pig, but active and strong."

"He had gone but a short distance when very suddenly up in front of him rose another pig, which had been lying in a mudhole in the street, buried so far down that unless you looked very closely you could have seen nothing of him. The first pig had not seen him, and when he rose so suddenly in the middle of the road the first pig was very much startled."

"He jumped back about three feet and then stood still for a moment, staring at his brother pig. Then he turned and ran off as fast as his four short, fat legs would let him. His little tail was shaking with fright, and he was squealing as loudly as though the butcher were after him with his biggest, sharpest knife."

"But he hadn't run very far when he slowed up, and I soon he stood quite still, with his tail still shaking. But he wasn't so frightened any more." He seemed to be saying to himself: "Now, what did that stupid pig mean by scaring me so? I'll teach him a lesson, I will! I'll show him he can't scare me!"

"And he ran back as fast as he could to the mudhole. There stood Mr. Pig No. 2, with a sort of astonished look on his face, as much as to say: "Now, what did he mean by running off and squealing? I didn't do anything to him!"

"But the first Mr. Pig got right down to business. He jumped upon the other pig, and soon the two were squealing at a great rate. Then the pig which had been so scared came out of the mudhole and trotted away with what looked like a smile on his face, and in his mouth he had a piece of the other pig's tail. That's how he punished him for frightening him so. Do you think it served him right?"

## Sunday Meeting of the Y. W. C. A. to Be An Out Door One

There will be no in-door meeting at the Y. W. C. A. on Sunday afternoon. The regular program will be held on Buena Vista Hill at the location of Ball's Bluff. This meeting will be in charge of the Camp Fire girls and will be a Council Fire meeting. There will be the regular ceremony of the Fire and the work of the Camp Fire girls will be explained. This is held on Sunday afternoon especially for the benefit of the fathers and mothers who will be enabled to see the work of the Camp Fire girls as carried on in the Y. W. C. A. of this city. The public, both men and women, are cordially invited. The meeting will begin promptly at 3:30 on the hill. Those who desire to go from the Y. W. C. A. should meet here promptly at 2:30. The ceremonial program will include:

- Lighting the fire.
- Ode to the Fire.
- Song, "As the Bright Flames Ascend to Heaven."
- Lighting of the wo-he-lo candles.
- Fire talk on the Camp Fire Organization.
- Roll call of the Camp.
- Song, "The Sun is Sinking in the West."
- Wood Gatherer's Pledge.
- Hymn, (by audience) "Day is Dying in the West."

**The Drummer's Tender Heart.**  
The commercial traveler had just finished a story of a disastrous fire, in which his firm suffered severely.

"And what did you do when you heard of it on your journey?" inquired his friend.

"Oh, I sent the boss a long telegram of sympathy! He likes that kind of thing. Cost me half a crown."

"Half a crown?" exclaimed the other incredulously.

"Oh, I charged it to my expenses, of course!" explained the traveler.

"A prophet is not without honor save in his own country," said the man who complains.

"Well," replied Farmer Cornstossel "that's one way o' savin' it! You might also mention that it's easier for a man to sell a gold brick in a town where they don't know him."—Washington Star.

**Tried to Do Better.**  
A tramp told a woman a hard luck story about losing his wife and family and home in an explosion.

"But," the woman said, "that isn't the same story you told me last week."

"I know, lady," said the tramp, "but you didn't believe last week's story."

## WHY THE FLY IS DANGEROUS.

For each female fly hatched in April there will be, if none of her progeny are killed, 7,000,000,000 in September of the same year.

Every fly is a possible carrier of disease on his hairy little foot.

He delights in cesspools, decaying animal and vegetable matter, barnyards, offal heaps, garbage barrels, etc., places where disease germs abide and multiply.

But he likes to vary his diet—fresh meat, sugar, bread—anything that humans eat the fly also likes.

He dearly loves to frequent the kitchen and dining room of his human friends at their meal time, and he lunches on all kinds of filth between those meals.

Every time he leaves the swill barrel or the cesspool for the kitchen or the dining room he carries with him on his feet some of the filth on which he has just been walking.

Swat, therefore, the voracious fly, or, better still, swat all you see, but keep from seeing many by starving them to death by keeping all their food supply in the stable, cesspool, swill barrel, kitchen and dining room safely and securely covered up.

A microscope using X-rays has been perfected by a French scientist.

## CASH DIVIDENDS ON GOODS YOU BUY

By HOLLAND.

SOUNDS good, doesn't it? And the best of it is it is true. These cash dividends are paid on every dollar you spend, provided you spend wisely and buy goods that the maker believes in so strongly that he advertises them.

Advertised goods are not always the cheapest so far as the amount asked for them is concerned. But they are INVARIABLY THE BEST. And this makes them cheapest when all things are considered.

When you buy for the same money a better article than you have been buying you get a cash dividend on your purchase. When you pay less for an article of the same quality you get a cash dividend.

THESE DIVIDENDS ARE PAID TO THE READERS OF ADVERTISEMENTS IN THIS PAPER.

"Dear, will you please follow directions while I read the recipe?" said Mrs. Walbrook to her obedient husband. He took the pan while she read aloud.

First you mix a beaten batter. Then you take an earthen pitter. Bat the batter in the pitter. Without clamor, dash or clatter; Stir it gently with your scatter. Milk and sugar fill the batter. In the pitter grove much fatter. Pour it in a dish that's flatter. Then the first and earthen pitter—Thw! do, it doesn't matter. So the fatter batter's flatter—Then.

Gently lifting up the latter. Platter platter, pour the batter. With a percolating pitter. In the former earthen platter. Without clatter, dash or splatter. Now.

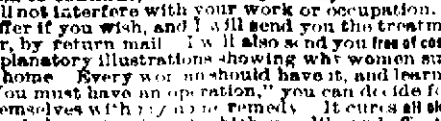

Once again in latter platter. Scatter fatter batter—batter—"Catch your wife and throw it at her," were the last words of Marianne, for the poor man was dead.—Baltimore Sun.

## The Woman Who Won't

DON'T you think that the woman who won't is a most exasperating individual?" asked Phoebe, as she joined the group on the piazza. "I mean," she explained, "one of those women who are obstructionists."

"Obstructionists sounds political," objected Madge. "Have you been studying up on suffrage?"

"No, this is just plain obstinacy," replied Phoebe. "In the form of my cousin Elizabeth."

"She's been a semi-invalid for some time," went on Phoebe. "And she's really brought it on herself by dieting. She's got a lot of crazy notions that one kind of food will injure her stomach and another affect her liver and so on, until now she's got to the point where she eats scarcely anything. She was perfectly well when she took up with these fads and now she's an invalid. But you can't make her see she's brought it on herself, or get her to change her diet. She just won't. When I say, 'But look where you are by doing these things! Why not try another course, just to see if it will not help you?' But no, she won't."

"It's the same, when I try to get her to go any where. If she'd only go out a little and see people and have a good time, she'd begin once more to take some interest in life. But no, she won't. And it's that way about everything that would help her, she just won't. There she sits at home stubborn as a mule, and cutting out of her life all that is pleasant and enjoyable and really helpful. And that she is on the wrong track is proved by the fact that she is sick all the time and has nothing to show for her troubles. What can you do with a person like that?"

The little group was unable to suggest a remedy.

"The worst of it is," went on Phoebe, "she got herself into this condition through the very best of intentions. When she began doing all these things, she thought she was doing the very best possible for herself. But what is exasperating is that when she sees the bog into which they have led her, she won't face about and try a new course. But she won't."

"I suppose she hates to admit she has made a mistake," ventured one.

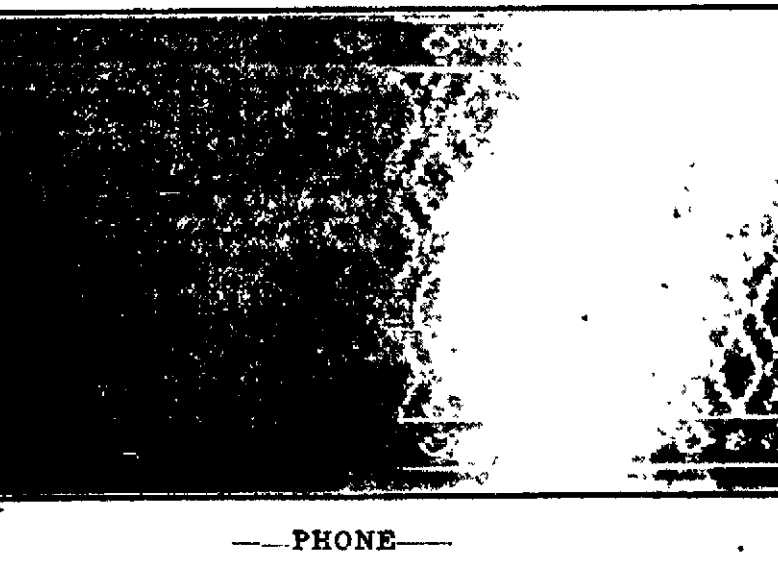

"I don't know what is her reason," said Phoebe, sadly. "But it seems so pitiful for her to sit in darkness, so to speak, when all the bright, beautiful world awaits, for her to walk into and enjoy."

# Panama Canal Slides Expected; Engineers Are Not Alarmed

## WATER MAY PREVENT THEM

Weight of the Liquid Is Expected to Partially Offset the Weight of the Mountains—Secretary Bryan and His Wifeless Dinner to Foreign Diplomats—Senators and the Tariff.

By ARTHUR W. DUNN.

Washington, May 8.—[Special.]—Slides on the Panama canal do not give the engineers who have cut the ditch any particular apprehension. They expect such slides will continue for some time after the water is turned in, but they also expect that the weight of the water in the canal will have the effect of stopping the slides to some extent.

At present the pressure from the mountain sides forces the earth upward in the cut. The engineers say that the weight of the water will have a tendency to offset that upward pressure. The anti-canal fellows, few in number, still say that the canal cannot be a success.

### On the Host's Table.

Just why there should be any international row because the secretary of state does not furnish wine at his dinners to diplomats is rather strange. It is not "good form" to criticize what appears or does not appear on a host's table. The diplomats should be leaders in "good form." Our temperance people will applaud Mr. Bryan for not having wine. And for that matter why should he furnish it?

Of course "wine" is considered champagne, and it must be imported champagne or there would be just as much of a "kick" as on the no wine menu. That reminds me that a very rich and distinguished senator once desired to boost a product of his own state and served domestic champagne at a number of his domestic entertainments. The guests growled and criticised, and finally one of his fellow senators frankly told the host that his wine was "punk." The result was that soon a sparkling flow of foreign champagne replaced the domestic output.

### Senators May Fight.

Democratic members of the house stated in caucus that features of the tariff bill would ruin certain industries in their districts and defeat them for re-election, but took their medicine. It looks as if the senators may be more outspoken and may go to the length of amending the bill if they can get the votes. Whether they will go to the extent of voting against it is doubtful. That will take a great deal of courage.

### Party "Traitors."

Four years ago a great many publications in this country upheld the Republicans who refused to follow their leaders and vote for the Payne tariff bill. These men were lauded as patriots of the highest type. These same publications are now denouncing as "traitors" such Democrats as talk of deserting the party at this time and voting against the Underwood bill.

Of course the papers or publications referred to want a very low tariff. Probably any man who is a protectionist would be considered as bad as if not worse than a traitor. But the fact is the idea of tariff reduction is so popular in many places that Democrats hesitate long before voting against a tariff bill that makes such sweeping reductions.

### Decorum in the House.

In making an earnest plea for decorum in the house Speaker Clark said:

## LIFE'S STRUGGLE WITH ILLNESS

Mrs. Stewart Tells How She Suffered from 16 to 45 years old—How Finally Cured.

Euphemia, Ohio.—"Because of total ignorance of how to care for myself when verging into womanhood, and from taking cold when going to school, I suffered from a displacement, and each month I had severe pains and nausea which always meant a lay-off from work for two to four days from the time I was 16 years old.

"I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedies but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has been my home for the last 18 years.

"The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or any one the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blessed with excellent health for a woman of my age and I can thank Lydia E. Pinkham's Vegetable Compound for it.

"Since the Change of Life is over I have been a maternity nurse and being wholly self-supporting I cannot over estimate the value of good health. Little home just by sewing and nursing since I was 52 years old. I have recommended the Compound to many with good results, as it is excellent to take before and after childbirth."—Miss EVELYN ADELIA STEWART, Euphemia, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

so much about some other fellow's local interest, but it pinches when it gets to a home product.

### Marshall's Task.

It begins to look as if Vice President Marshall was going to have more trouble keeping order than Speaker Clark, although he presides over about one-fifth the number of members. The senate is developing into a very disorderly body, as senators talk to each other instead of paying attention to what is going on in the senate.

### Browning Their Anchor.

Congressman Browning of New Jersey is the only Republican from the state in either house. As a consequence he is overwhelmed with work from all over the state. The Republicans of all districts turn to him, and he works the departments and writes the letters for his party friends. Browning is a busy man.

## NEWARK HIGH SCHOOL NOTES

Supt. Hawkins called to his old home yesterday at East Rochester, O. on account of the illness of his aged father.

At a meeting of the Athenian Literary Society the members decided to entertain the Thalian girls in appreciation for being entertained by the latter society last fall. Consequently the Athenians have invited the girls to attend their annual social session, which will be held in the course of three weeks, on May 28th.

Arrangements have been made to strengthen the large flag pole which stands in front of the High school building. The pole was presented as a gift to the school by the class of 1911.

On Friday morning the Sophomore Rhetorical society under the direction of Prof. Moninger, presented their public program to the student body assembled in chapel. The program which was divided into two parts, was excellent and showed considerable talent for those who took part. Part first was as follows:

Piano solo ..... Olive Baughman  
Recitation ..... Dorothy Kramer  
Original Story ..... Raymond Crawford  
Essay ..... Eula Hess  
Discussion: Resolved that the Athenians excelled the Spartans. Affirmative, Robert Irilkin; negative, Ivan Greene.

The feature of the program was the presentation of Louisa M. Alcott's Bianca, set to music, through the untiring efforts of Miss Kathryn Vance of the H. S. faculty. Both the masculine and feminine characters were portrayed by girls, who rendered their particular parts in a very able manner and merited the hearty applause of the audience. The cast included:

Bianca (a Spanish lady) ..... Louella Hawkins  
Adebert (Her Lover) ..... Alta Sherburne  
Heron (Adebert's Rival) ..... Dorothy Montgomery  
Hilda (a Witch) ..... Beatrice Stephenson  
Juan (a Page) ..... Kenneth Brubaker

## The Best Treatment for Itching Scalps, Dandruff and Falling Hair

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura ointment on the scalp skin rather than on the hair. The next morning, shampoo with Cuticura soap and hot water. Shampoos alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair. Cuticura soap and ointment sold everywhere. Sample of each mailed free, with 25¢ S. B. Book. Address "Cuticura," Dept. 3, Boston.

For tender-faced men shave in comfort with Cuticura Soap Shaving Stick, 25¢. Sample free.

## OFFICIAL CHANGES ANNOUNCED BY THE B. & O. R. R. SYSTEM

Third Vice President A. W. Thompson, chief operating officer of the Baltimore and Ohio Systems, announces the promotion of J. H. Clark, from former assistant superintendent of floating equipment at New York, to the position of superintendent of floating equipment, filling the vacancy caused by the death of Captain Walter Ancker. Mr. Clark will have charge of all marine equipment owned by the Baltimore and Ohio. His office will be in Baltimore and the appointment is effective at once.

General Superintendent of the Baltimore and Ohio Railroad at Pittsburgh, has been transferred to the same position with headquarters at New York, and has also been appointed general superintendent of the Staten Island Railway Company and the Staten Island Rapid Transit Railway Company, both of which are Baltimore and Ohio lines operated on Staten Island. The announcement of these changes is made by C. C. E. Bent, general superintendent of the New York division of the Baltimore and Ohio vice-president of the latter company.

E. J. Griffith, tax agent of the Baltimore and Ohio System, announces the appointment of Fred McNeill, to the position of assistant tax agent, with headquarters at Baltimore. Mr. McNeill will handle matters of taxation under the direction of Mr. Griffith and his jurisdiction will embrace the entire system.

Mr. McNeill has been in the service of the Baltimore and Ohio 22 years, having entered the employ of the company as a messenger in the law department under the late John K. Cowen, in September, 1891.

W. B. Willis has been appointed assistant division engineer of the Monongah division of the Baltimore and Ohio railroad, with headquarters at Grafton, W. Va., succeeding H. F. Kloss, transferred.

Incident to this change D. W. Whisner is appointed supervisor of subdivision No. 11, of the Monongah division, and will be located at Clarksburg, W. Va.

Changes in the official organization

of the Baltimore and Ohio police department have been made as follows: J. A. Selvey, captain of police on the Monongah division, Grafton, W. Va., has been transferred to Baltimore in the same capacity to succeed C. Horn, resigned.

J. A. Campbell, has been appointed captain of police at Grafton, to succeed Captain Selvey.

At the Auditorium Tomorrow. Auditorium patrons are promised another excellent program of Photoplays tomorrow, when two great special feature pictures will be offered in addition to three other well selected films. "Silver Blaze," is a story of a horse and its human influence, written by A. Conan Doyle and is one of those Sherlock Holmes detective plays that has created a sensation in the photoplay world. "Silver Blaze" is the favorite for the Westex Cup and its owner, Col. Ross had won many prizes with him. Great was the surprise therefore, and greater the anxiety, when "Silver Blaze" was found to be missing, on the eve of his greatest race. This forms the plot for this great feature picture, which will be shown in two parts.

"The Flying Chaplain" is a two part war drama which tells a thrilling story of war times in a convincing manner. One of the big scenes is a man riding a galloping horse bareback alongside of a careening rapidly moving prairie schooner, slash an opening through the canvas with a hunting knife, tumble into the wagon, touch off six sticks of dynamite and jump out the back end just as the wagon is blown to atoms. Schmidt's orchestra will offer a select program and the entertainment will run continuous from 1:30 to 10:30 p. m.

## No Room for Argument

If you are accustomed to ironing with ordinary sad irons, you certainly are having a sad time of it, but the worst of it is you really don't know the full extent of the sadness.

You know that you are very, very tired after a day's ironing; that you have sore hands or fingers in spite of all you could do to protect them; and that some of the most delicate pieces have been scorched. But so long as you don't realize that all this trouble and worry are absolutely unnecessary, you don't know how really sad they are.

NEWARK, OHIO.

## ARCTIC REGION IS DEAD, SAYS LANKESTER

London.—Further exploration within 1,000 miles of the south pole will be of no scientific value, according to Sir Ray Lankester.

"There is no living thing on the antarctic continent," he says, "excepting the seals and the penguins and a few other birds found on and near the coast line and a minute insect like the so called glacier flea, together with a few animals living in pools formed by the melting of ice in the brief summer and species of algae, mosses, lichens and fungi."

Sir Ray, as director of the Natural History museum, had charge of the antarctic birds, etc., brought back from the south polar continent by Captain Scott's expedition on the Discovery, and he has had official first hand information as to the results of all the explorations in that part of the globe.

Flowers would grow at the south pole in summer if it were not for the mountains there, according to Professor Lankester. It is these mountains that make the south pole so cold. The south polar area is an elevated mountainous land reaching 12,000 feet in parts, covered with perpetual ice in consequence of the elevation. Moreover, the antarctic continent is surrounded by the sea and is lifeless.

"There is a vast area of land around the north polar sea," said Dr. Ray, "which is green with vegetation and dotted with brilliantly colored flowers in summer and yet is only 500 miles distant from the north pole. In the arctic region are seals, white bears, walrus, foxes, wolves, musk oxen and many small mammals and birds which stray from the neighboring continental lands. There is abundant vegetation, including flowering plants, which find a growing place wherever land is exposed. So far as temperature is concerned, these flowers and plants would grow at the north pole itself were there any islands in that part of the frozen polar sea. In contrast to the low lying land around the north pole the mountainous interior of Greenland is of high elevation and covered with perpetual ice and devoid of life."

"The north pole is, in fact, a fair weather zone, while, on the other hand, the antarctic land is swept at all times of the year by blizzards of exceptional force and duration."

From the very beginning of life on the earth, it is asserted, the south pole has been an uninhabited region. No animals ever lived there. The deepest digging will disclose no bones of extinct creatures. The antarctic continent is literally the only place on the whole earth where silence and mystery have existed from the first.

You, Mr. Citizen, Have the Power to Force Congress to Heed This Demand

The first step that should be taken in the work of protecting the valleys of Ohio against another disastrous flood should be the appointment of a Congressional commission to visit the state and investigate the true extent of the damage.

If the Ohio delegation in Congress will insist that such a body be named there is little doubt that the House and Senate will appoint a board from among their own members to come out here and see at first hand just what damage the flood wrought in this state. This is necessary for a proper understanding in Congress of the flood disaster.

People in the east—the members of Congress as well as others—simply do not understand or appreciate the extent to which the high waters laid the state waste. Visitors to the flooded region from the east have invariably remarked that until they saw the evidence of destruction and death they did not begin to realize how relentlessly the waters had torn their way through the stricken cities and towns. These remarks are significant in that they reveal that the members of Congress, to whom we of this state must look for relief, do not themselves understand our problem; and failing to understand the problem, it is not reasonable to suppose that they can act intelligently in the matter of supplying a remedy.

### GIRL'S PORTRAIT ON UNCLE SAM'S PAPER MONEY

[Associated Press Telegram]  
New York, May 2.—Miss Evelyn Jones of San Antonio, Texas, an art student here, is receiving the congratulations of her friends as she is the girl whose portrait is likely to become more popular than any other in every American home, as it will appear exclusively on Uncle Sam's paper money.

It was recently decided by a commission of congressmen to be the one to decorate the currency.

"Yes," she said when asked about the matter, "I'm the girl, but please don't say anything about it." Miss Jones is the daughter of Mr. and Mrs. S. A. Jones of San Antonio.

#### He Knew.

"You say that a straight line is not the shortest distance between two points?" exclaimed the grinch. "Why, you must be an idiot."

"No, I'm not," replied the stranger. "I'm a taxi driver."—Cincinnati Enquirer.

#### Sounds Plausible.

"Pop, why does the moon get full?" "I don't know. Don't bother me." "Pop, I guess if the moon would only stick to the Milky way it wouldn't get full, would it?"—Lippincott's.

Nothing of worth or weight can be achieved with half a mind. With a faint heart and with a lame endeavor.—Isaac Barrow

Obadiah Stone, a mill watchman at Grovesville, Conn., has retired after 53 years' service. In his regular work he has walked 90,000 miles.

A Congressional investigating committee should be appointed at once to visit the flooded regions. This visit would not necessarily be extended; just long enough to let the Congressmen see with their own eyes that the newspapers have understated the facts, rather than exaggerated them. The trip could be made while the tariff bill is under general debate in the House, for there is no easier time than this for the Congressman or Senator to get away from the capital. "General debate" is that period in the making of tariff bills when the House is turned over to the speech makers who desire to talk tariff, not with the idea of changing the bill, but solely for the purpose of getting their speeches printed in the Congressional Record, that they may be circulated later among their constituents at home. During this period the attendance in the House dwindles until at times there is no one present except the Congressman who is speaking and the official reporters.

It would be possible, therefore, for the entire Rivers and Harbors Committee of the House to come to Ohio any time within the next few weeks. They would never be missed at Washington, and they would not miss anything while away.

Suggest this to your Congressman in a letter, and ask him to urge the appointment of such a Congressional committee.

#### Employed the Mail.

Ben Butler was once chairman of a meeting at which Rufus Choate was booked for an address. Mr. Choate was about to begin his address when a man crawled up to Butler and whispered to him that the joists in the floor and the supporting beams were giving way because of the heavy pressure on the floor and they were likely to collapse any moment. Butler turned to the man and whispered to him, "Keep quiet." Then, turning to the audience, he said: "A man has brought me information that outside of this hall there are not less than 20,000 people clamoring for admission. I propose to adjourn this meeting to the common, where all can hear Mr. Choate. Now, just see how quickly we can empty this hall." Meanwhile Choate was tugging at Butler's coat-tails, saying: "Ben, don't! Stop, Ben! Why, I can't see to read on the common. My voice won't carry in the open air. I can't make them hear," and so on. After most of the audience had left Butler turned around to Choate and said, "Say, Choate, would you rather deliver this speech here in this hall or down below?"—Argonaut.

#### The Greater Attraction.

A correspondent of the Boston Transcript says that "in looking over some memoranda made by John Whitier of East Haverhill (father of the poet) I find this item, made under date of Feb. 12, 1819: 'First snowstorm of the year.' This is possibly the storm his son commemorates in 'Snowbound.' The lad was then in his twelfth year. The item immediately preceding the one I give above is dated May 9, 1816. 'An elephant came to town.' As President Monroe came to town that same day, it is odd that his coming is not also chronicled as equally memorable."

### POPE DEVOTES SEVERAL HOURS TO HIS WORK

[Associated Press Telegram]  
Rome, May 2.—Pope Pius continues to improve in the recovery of his health. Every day he descends to his library and devotes several hours to his work. It is reported that one of his last acts before he became convalescent was to appoint Dr. Andrew Amici his own private physician. Although Dr. Amici is not the official Vatican physician, he shares with Prof. Ettore Marchesini the responsibilities of caring for the pontiff during his recent illness.

His Holiness expressed the warmest desire today to have Cardinal Dini, who has just returned from Malta and to hear from him everything concerning the ecclesiastical congress which has just been held there.

#### No Pleading Her.

"That Mrs. Olds is dreadfully hard to please," said a woman. "How so?" another woman asked. "Why, I told her the other day that she carried her age well, and she didn't seem to like it at all. So then I told her that she didn't carry it well, and she liked that less than ever."—Exchange.

#### Tempo.

"In what time was that composition written?" asked the man who professes to be expertly musical.

"I don't know," replied the man who doesn't. "But it sounds to me as if it ought to have been written in about ten minutes."—Washington Star.

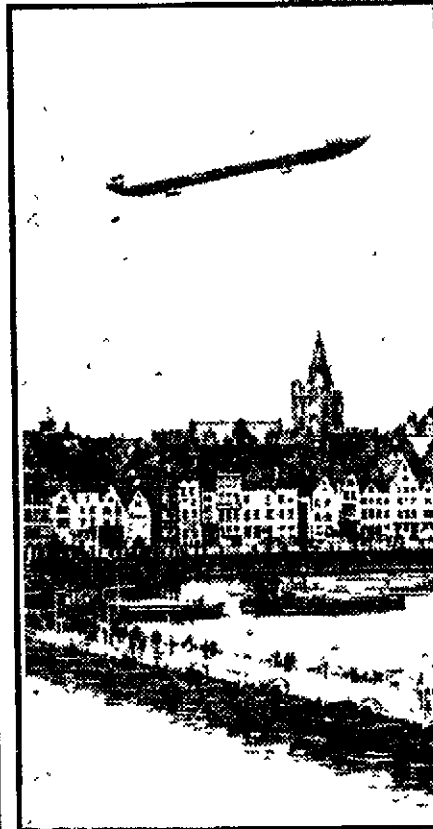

Two appendices were removed from Dr. A. Spangenberg of Scranton, who now is recovering at his home. The case is said to be unprecedented.

## WILL EXPEND \$12,500,000 FOR AIRSHIPS

Berlin.—Germany's plans for a big aerial navy have been made public. The fleet of airships and aeroplanes, which is to be entirely separate from that connected with the army, on which nearly \$25,000,000 is to be spent, will cost \$12,500,000.

A bill appropriating \$750,000 as the first outlay was introduced in the reichstag. It calls for ten naval dirigible balloons of the largest size, of which eight are to compose the active fleet and two are to be held in reserve. Fifty-four double revolving balloon balls, into which the dirigibles will be able to enter regardless of the weather, are to be erected and two more to be kept in reserve.

Fifty aeroplanes, of which thirty-six are to form the active fleet and four-

GERMAN ARMY DIRIGIBLE FLYING OVER BERLIN.

teen the reserve, are also to be built, to be manned by a special corps of 1,452 officers and men.

The appropriations for this fleet to be spread over the years 1914 to 1918 include \$8,750,000 for dirigibles and \$2,250,000 for aeroplanes, while \$1,500,000 is asked for in connection with the pay and maintenance of the crew.

The life of the new airship is estimated at only four years each.

The sum to be devoted to military aviation is unexpectedly high, reaching \$10,750,000, with supplementary estimates of \$5,000,000 to be added later on. The sum of \$52,000,000 is assigned for the construction of new fortresses.

After the passage of the army bill the land forces of Germany on a peace footing will comprise 33,800 officers, 601,176 privates and 15,000 one year volunteers. The balance of the total of \$70,000 will include medical, veterinary and pay officers, artificers, the hospital corps and other noncombatants.

The imperial parliament, it is argued by the newspapers, will undoubtedly demand radical modifications of the new tax proposals, rejecting some and demanding the substitution of others which will weigh more heavily on the well-to-do classes.

Dr. Otto Wemmer, the leader of the Progressives in the reichstag, expresses the opinion that the debate on the military measures will not be finished before the summer recess.

Foreigners domiciled in Germany are to be subjected to the war control buttons on the same basis as German subjects.

### TO DIG LONGEST TUNNEL.

Canadian Pacific Will Bore Sixteen Miles Through Mountain.

Winnipeg.—The Canadian Pacific railway announced that it will begin construction shortly of the longest tunnel in America. The tunnel will be dug through Kicking Horse pass in the Rocky mountains, will be sixteen miles long and will cost \$14,000,000.

It will take seven years, it is estimated, to build it, and it will be four miles longer than the Simplon tunnel through the Alps.

#### In Sleep Breaks Leg Again.

York, Pa.—Dreaming in his bed at the York-hospital of the runaway accident of a few weeks ago which had laid him up with a broken leg William H. Smeech reached that part of his dream where the runaway bore down upon him. Smeech tried to profit by his previous experience and leap aside. He gave an actual leap, which carried him over the edge of the bed and broke his leg again at the place of the first fracture.

Spartana is scientifically mixed, ready for use when you buy it. Gives a durable, elastic surface to woodwork. It flows evenly, dries over night. The directions for its application are simple.

Have surface clean and dry. If dark spots show, sandpaper them off. Apply stain with soft, flat brush, in direction of grain.

If desired to use a light finish on dark floors, a ground coat must first be applied.

Natural grain of wood can be reproduced with one of our graining outfits.

# BAD MIXUP OF BOYS, DOGS AND MOTORCYCLES

What might have been a very serious mishap, but finally turned out in a rather amusing way, occurred late Friday afternoon at the crossing of Locust and Sixth streets. Two young men were riding a motorcycle north on Sixth street and two common sized dogs were going west on Locust street and at the corner in front of James Linehan's residence, the motorcycle ran over the two dogs, and the men and the machine were stacked in a heap, with the latter playing the part of cap sheaf. The dogs left at a rapid rate south on Sixth street, leaving step to their own sweet music. The men soon extricated themselves, and not desiring to repeat the catastrophe, went north on Sixth street in the opposite direction from which the dogs left.

# Farmer is Drowned in Six Inches of Water

Trouton, O., May 2.—Alfred Keller, farmer and live stock dealer, was found dead in Clinton's creek, near Trouton, where he had been thrown when his team of horses ran away. His body was found at the bottom of the creek when his horse plunged over an embankment. The water in the creek where Keller was drowned was only six inches deep. He was found in such a way that it was thought to move.

# YEGGMEN ARE GIVEN TEN YEARS

Safe Crackers Who Operated in Granville Early in February Given Still Sentence—Other Court News.

Sentences of ten years each in the penitentiary were given James Neary, John Baker and William Longfellow, self-confessed burglars and safe-blowers, who were brought before Judge T. B. Fulton in Common Pleas court Saturday morning. The men pleaded guilty to a charge of burglarizing the jewelry store of Fred Buxton at Granville several months ago. The safe was blown and a large quantity of jewelry stolen. Practically all of the loot was recovered when the men were arrested in Columbus a few hours after the safe was blown.

Neary, Baker and Longfellow were all in court, neatly attired and showing the effects of their confinement by the color of their faces.

Prosecutor J. Howard Jones in a statement to the court told of what he expected to prove against the men. He had stood trial, he referred to some of them as having had records. He made no recommendation as to what punishment should be meted out, neither requesting a severe sentence nor recommending a light one.

Neary was the first to be sentenced. He denied that he had been in trouble before and stated that he had entered a plea of guilty with the expectation of receiving the court's mercy.

Baker told the court that he had none of Buxton's property on his person when arrested and hoped that leniency would be extended.

Longfellow had little to say, merely asking for a merciful sentence.

Judge Fulton in sentencing the men said that whatever they did in connection with the burglary, was done deliberately and with premeditation. He stated that the law provides a sentence as great as 15 years, but that he would take into consideration the fact that they pleaded guilty and would make the sentence 10 years in each case, no part of which is to be in solitary confinement.

George Koonfish, who pleaded guilty to a charge of burglarizing the Ankle barber shop and the McDonald shoe store, pleaded for mercy because of his tendency towards tuberculosis. The court sentenced Koonfish to five years in the penitentiary.

Jack Lake, charged with shooting with intent to kill May Myers, February 21, who had previously pleaded guilty, was sentenced to two years in the penitentiary.

# DAN CUPID KEPT BUSY PAST YEAR

GROCEERS' ASSOCIATION.

Thursday evening the grocers' association met in regular session with a large attendance and the best of feeling, for it was the evening of the most successful step toward a "unit form closing day" that Newark has ever had. The grocers, almost to a man, had observed the afternoon and the secretary read a report of the progress from business men of Columbus who would not go back to the "old order" any more than they would turn back their clocks to prevent the passing of time. Reports were read from the various committees, and another forward step was taken, and, beginning June 1, no goods will be delivered after 6 o'clock by the grocers of Newark. This condition prevails in other cities and towns, even where there are no associations by tacit or mutual agreement, and Newark will "get on the band wagon" with the rest. There is every assurance from business men other lines that they will join the Thursday afternoon movement to prevent confusion among the patrons of both city and country.

# ROLAND LODGE, K. OF P.

The Knight rank was conferred upon a class of eight Esquires at the last meeting of Roland Lodge, No. 205. The work was done in a manner that reflected credit upon the hustling degree team of this lodge. Master of Work Woodard, who is now serving his second term, has been kept on the jump for the past few months as work in some of the degrees has been on tap nearly every meeting night, and he has had no leisure. The prospects are that work will continue for several weeks yet as the applications are still coming in, three new ones being received at the last meeting. Four others were called upon and elected, and the Page rank will be conferred next Tuesday evening. After the session last Tuesday night the entertainment committee served ice cream and cake and cigars, which were enjoyed by the large crowd in attendance.

In addition to the regular routine work and the conferring of the Page rank next week, an important communication from the Grand Lodge of Ohio is to be acted upon and it is hoped that a large representation of the brethren will be on hand. Visitors are always welcome.

# NERVY ESCAPE OF PRISONER IN CHICAGO COURT

[Associated Press Telegram] Chicago, May 2.—Bert Sommer, locked in an ante room of Judge Rooney's court on the third floor of the criminal court building today, attempted a rope to a radiator, swung through the open window to another open window of the state's attorney office on the second floor, walked past two girl stenographers, several court attaches and a policeman, and disappeared in the street.

Sommer, recently was fined \$50 for disorderly conduct and was in court today while his attorney was arguing a motion for a new trial. He is supposed to have had the rope concealed on his person when he entered court, and to have had a confederate in an automobile in front of the building.

# STREETS OF NEW YORK

(Continued from Page 1.)

shop girls, milliners, confectionery workers—these and marchers from almost every other calling with women laborers, were in the procession, each carrying a tiny yellow flag, and each trying her best to observe the grand marshal's order "to keep still, no talking or laughing."

At the Plaza where Central Park meets Fifty-ninth street and the avenue, the marchers disbanded for two mass meetings, one in the Plaza, the other at Carnegie hall.

[Associated Press Telegram] New York, May 3.—The streets of New York were astir today with the fluttering yellow of woman suffragette bedecked in this color, hundreds of women from all over the country poured into the city today to reinforce many thousands more pledged to march on Fifth avenue this afternoon in probably the biggest parade ever held for the cause of "votes for women."

The muster roll indicated an army thirty thousand strong, augmented by two thousand male sympathizers, brave enough to dare the fumes of unbelievers and the "antis." Perfect weather conditions inspired the marchers.

While platoon of police began to take positions along Fifth avenue to protect the parade from possible disorderly demonstrations, the marchers recruited from every walk of life, began to gather this forenoon in Washington square and nearby cross streets. They were ready to swing into New York's famous thoroughfare of wealth and fashion at 2 o'clock, and to the music of forty bands march eight abreast to the Plaza at Fifty-ninth street and Fifth avenue. Upon disbandment at that point, the program called for two mass meetings, one to be held in the Plaza, another at Carnegie hall nearby, at which prominent speakers, including Dean Sumner of Chicago, were to make addresses. In front of the great New York Public Library at Forty-second street and Fifth avenue, a reviewing stand had been erected, from which city officials and other persons of prominence might review the parade.

Under the command of Miss Josephine Biederhase, chief marshal, the local paraders mustered behind the banners of the seven women suffrage organizations which have headquarters in this city. Those in the front ranks gathered under the banners of the states from which they came. The order of march placed the National Woman Suffrage association in the lead, with Miss Inez Millholland as mounted color bearer. Mrs. Richard C. Burleson, who had intended taking part in the parade was unable to be present, and several prominent women, including the Rev. Dr. Anna Howard Shaw and Miss Jane Addams, have gone to Europe for the International Suffrage alliance meeting soon to be held at Budapest.

Then followed the congressional committee of the association, from Washington led by Mrs. Alice Paul and Lucy Burns; then women voters from the nine suffrage states and Alaska. The latter were garbed in white with laurel wreaths and golden stars in their hair and bore aloft a map of the United States showing the states where "victory has been won."

The "Women's political union," divided in two "professional groups," and "business women" prepared to fall in next. The last named included department store clerks, stenographers, telephone operators, milliners, dress and white goods workers and domestic servants from the suffrage nations, Norway, Sweden and Finland, in national costume.

The equal franchise society, the New York state women's suffrage association, the women's suffrage party, the college league, the men's league for women suffrage, delegations from the non-suffrage states and the "political equality association" followed in order named.

The women's suffrage party turned out wearing yellow George Washington straw hats, adorned with yellow rosettes, and every man and woman in the parade carried a yellow suffrage flag. The men's division mustered behind Oswald Garrison Villard and Mrs. Beatrice Forbes Robinson Hale on horseback, and other prominent men and women in couples.

Conspicuous in the line-up was the little group of pilgrims commanded by "General" Rosalie Jones who are famous for their cross-country marches to Albany and Washington. They were attired in their pilgrim cloaks and hoods and their battered walking boots. Indians, cow girls and a prairie schooner were other features which attracted attention.

# LAND BILL

(Continued from page 1.)

negative votes were cast by Senators Cartwright, Democrat, and Wright, Republican.

The principal provisions of the bill are as follows:

1. Aliens eligible to citizenship may acquire and hold land to same extent as citizens.
2. All other aliens are limited to specific rights conferred upon them by the existing treaties between the United States and the nation of which such aliens are citizens or subjects.
3. In the case of the Japanese, the bill prohibits ownership of farm or agricultural land while permitting them to own residences and factories, manufacturing and shops.
4. Leases of agricultural lands by such aliens are permitted for a period of not exceeding three years. There is a question as to whether renewal would be lawful.
5. Aliens ineligible to citizenship cannot inherit land. Upon the death of an alien land holder his property shall be sold by the probate court and the proceeds revert to his heirs.
6. The state specifically reserves sovereign right to enact any and all laws in future with respect to the acquisition of real property by aliens.
7. Present holdings of ineligible aliens are not affected except that they cannot be bequeathed or sold to other aliens, classified among those not eligible to citizenship.

A companion measure, identical in phrasing, probably will pass the assembly today and will be signed by Governor Johnson after "a reasonable time" has elapsed in which to hear possible protest from President Wilson who has requested a respite.

In the closing hours of the debate partisanship was lost sight of Democrats and progressives voted together in response to what they took to be the demand of the people of California. Their only difference in the end was over the question of whether the bill was drastic enough.

The utility of Secretary Bryan's mission was shown in the vote of his own party. Nine of the ten Democrats voted contrary to the advice which he brought from President Wilson, while not a single progressive yielded to his expressed wishes.

# PRESIDENT HOME FROM NEW JERSEY

[Associated Press Telegram] Washington, May 3.—President Wilson returned to the White House at 8 o'clock today, after a two days' speaking trip to New Jersey. He expressed himself as pleased with his reception in his home state and is confident that the reforms he advocated ultimately would be accomplished.

Prof. W. C. Bagley, of Chicago, urged restoration of the whipping post for white slavers.
